

Propel Strategy and Optimize CPM Performance

CCH® Tagetik for SAP HANA® combines the ultimate data processing with a leading-edge intelligent platform.

Turn data overload into data opportunity

As the need for faster and better-informed decisions grows, finance is challenged with an ever-growing volume of data to control.

CCH Tagetik for SAP HANA is a corporate performance management (CPM) platform that leads the market with its open data model and powerful data engine, the Analytic Information Hub. This SAP-certified solution creates a single source of truth for finance by centralizing large volumes of detailed financial and operational data, while leveraging SAP HANA's in-memory technology for enhanced performance.

As a bundle solution, CCH Tagetik for SAP HANA is SAP S/4HANA®-ready, integrates with SAP Analytics Cloud, and can easily be deployed on the cloud as SaaS or on-premise. On top of state-of-the-art governance that streamlines the financial close, planning, and regulatory compliance, CFOs and their peers can generate the real-time, predictive insight they need to propel strategy and make informed decisions.

Consolidate, plan, and report in half the time

By running CCH Tagetik for SAP HANA, lightspeed data processing improves financial process efficiency, transforms data into insights, and expedites your speed of thought. Customers have benefited from:

- CCH Tagetik for SAP HANA seamlessly integrates with existing applications, reducing data integration costs by 30%.
- Real-time data access and drill-through results in 70% faster reporting, allocations, calculations, and processes.
- AI-based machine learning and predictive analytics improve the accuracy of forecasts by 75%.

Optimize corporate performance management

- Shorten consolidation, planning, and reporting cycles
- Make data-driven decisions based on real-time data
- Provide management with the right answers – faster
- Start predictive forecasting
- Tap into partner-built applications and their networks

Satisfy IT requirements

- Be SAP HANA-ready
- Extend your SAP investment
- Simplify your IT infrastructure
- Choose from flexible deployment options
- Profit from leading-edge data management
- Reduce integration consulting costs by up to 30%

Maximize your ROI

CCH Tagetik for SAP HANA is extensible and will support data as it grows. Plus, you'll cut costs with a seamless integration to SAP HANA and non-SAP HANA data sources.

Unify financial processes

CCH Tagetik unifies and streamlines financial consolidation and close, integrated business planning, profitability analysis, regulatory reporting, and disclosure.

A platform for today — and the future

High-speed data processing

- **Boost financial processes with data processing from SAP.** Speed up consolidation, predictive planning, and reporting with in-memory technology, parallel processing capabilities, and mass data processing.
- **Get real-time data.** CCH Tagetik for SAP HANA runs natively on SAP HANA with no latency, resulting in the fastest data processing on the market. You can create real-time analytics on live transactions from unstructured and structured data.

Seamless integration

- **Connect SAP HANA and non-SAP HANA data sources.** Easily connect and drill through to SAP S/4HANA and any SAP solution via SAP HANA smart data access, or SAP Smart Data integration.
- **Reduce SAP integration costs by 30% or more.** Automate integration for SAP solutions with data and metadata extraction and mapping from SAP ERP Finance and tables in SAP® BW/4HANA®, SAP ECC, and SAP S/4HANA.

Optimize financial processes

- Produce real-time reports and analytics. Generate the CCH Tagetik analytical model for SAP HANA automatically based on CCH Tagetik dimensionality and data. Ensure security through the SAP Analytics Cloud or SAP Analysis for Microsoft Office. Produce Word and PowerPoint reports with CCH Tagetik Collaborative Office.
- Create advanced analytics. CCH Tagetik for SAP HANA has built-in advanced analytics, multi-model processing, and in-memory first dynamic data storage management.
- Access granular insights. Slice, dice, drill through, and synthesize detail-level information, like SKU, individual customer, and transaction.

Increase accuracy with predictive technology

- Set a high-performance baseline. Prepare data for predictive analytics through rapid processing speed, near-real-time transformation, and its ability to house granular data.
- Produce accurate forecasts. Use CCH Tagetik Predictive Intelligence, the out-of-box predictive planning solution that empowers you with explainable predictions and actionable insights to make better decisions faster.

Pick your deployment

Deploy CCH Tagetik for SAP HANA on-premise or cloud.

We're in it for the long haul.

CCH Tagetik for SAP HANA has a long-term road map with plans to grow and expand our SAP HANA integration across the SAP product stack.
